

Cook in Comfort You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much heat—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

FARM AS BIG AS A KINGDOM

The Farmhouse Cost \$1,600,000 and Accommodate 500 Guests.

"The announcement that Mexico is about to make some effort to curb the princely aspirations of Don Luis Terrazas of the State of Chihuahua promises," says the Bookkeeper, "to bring into the public eye one of the most remarkable and at the same time one of the least known of the world's unusual men."

"Four years ago a German prince travelled 5000 miles to visit a 'farmer.' This farmer was Don Luis, whose 'farm' Mexicans are beginning to believe is getting too large for the public health."

"In short, it is the biggest farm in the world. In area it ranks with the largest of European kingdoms and empires and would make one of the big States of the Union. It measures 150 miles from north to south and 200 miles from east to west, or 8,000,000 acres in all."

"It embraces whole ranges of mountains, entire water systems, volcanoes, mineral lands and thousands of lakes. Over it roam 1,000,000 head of cattle, 700,000 sheep and 300,000 horses. The 'farmhouse' is the most magnificent in the world—a palace costing \$1,600,000 in gold, superbly furnished and with rooms to accommodate 500 guests."

"Scattered over this vast ranch are 100 outlying stations, each of which has charge of a certain portion of the estate. The cow-herds and hunters numbered 3,000 mounted men last year, and the total number of employees exceed 10,000."

"The Terrazas ranch is the only one in the world which maintains its own slaughtering and packing plant. Last year 200,000 head of cattle and 150,000 head of sheep were dressed and packed, 100,000 head of horses were sold, 600,000 tons of hay cut and stacked for use in the rainless season and 200,000 bushels of various grains harvested."

"The running of this colossal farm and ranch is not only interesting because of the magnitude of the operation, but it furnishes as well a valuable object lesson in the management of a people. The total population supported is about 50,000, and there are no happier people in Mexico than those who owe allegiance to Don Luis."

"Not long ago it was claimed by a member of the Mexican Government that if he so willed Don Luis Terrazas could raise an army of 10,000 men, and that every one of them would fight for him—and especially for his beautiful wife and twelve children. The Don's wife is considered by many the loveliest woman in Mexico today, and her five daughters are also beautiful."

"While the Terrazas family entertains hundreds of guests every year and spends thousands of dollars annually in philanthropic work every effort is made to keep out of the public eye, is especially to keep out of the papers. It is always impressed upon their guests that to guard this privacy is the only way to retain the Terrazas friendship."

"It is said that no paper in Mexico city has ever published a picture of a member of the family. Guests are welcome to bring cameras, but they are not expected to use them near the Terrazas home or to include in their pictures any member of the family."

"Although the richest man in Mexico, Don Luis personally superintends the work on his huge estate. He is handsome, highly educated and with his family has travelled all over the world. His children will all have been educated in the United States. The home of the family, called Chihuahua Castle, is surrounded by magnificent gardens. When Don Luis is away one of his sons or perhaps a daughter takes his place."

Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are—
